ARDI-AR

ASSET RELATIONSHIP & DATA INTEGRATOR

- AUGMENTED REALITY

WHAT IS ARDI-AR?

ARDI-AR is an innovative application that provides an enhanced virtual version of your plant and equipment, with layers of information and graphics over real-world images.

With the ARDI-AR app installed on your phone or tablet, you use your camera to view and identify assets.

ARDI-AR overlays details that are not visible – pop-up descriptions of the equipment, as well as live information, historical trends, and documentation.

All information about your assets is delivered in a simple and ultra-convenient form, exactly where your people need it most.

Designed to provide information to those using or maintaining the equipment, the information displayed can be used within operation or maintenance processes, for scheduled inspections or more.

CRITIAL DATA AT YOUR FINGERTIPS
Augmented reality turns your device into a powerful tool in the field.

ALL DATA SOURCES IN ONE PLACE

ARDI-AR is designed to fit in with existing procedures and workflows, gathering the most important information into one 'point of truth' when you need it.

ARDI-AR BRINGS AUGMENTED REALITY TO BUSINESS AND INDUSTRY.

ARDI-AR MAKES IT EASY FOR STAFF TO USE YOUR ASSET INFORMATION BY DELIVERING IT TO THEM IN THE SIMPLEST WAY POSSIBLE - BY SIMPLY LOOKING AT THE ASSET THROUGH THEIR PHONE.

ARDI-AR BENEFITS

ARDI-AR is useful not only for your people in the field providing information when they need it, but also provides benefits for the organisation.

ARDI-AR can help your organisation by:

REDUCE DOWNTIME
More information exactly when you need it means better decisions and faster diagnoses.

INCREASE INDEPENDENCE
One source for all your information makes you more independent and efficient.

SIMPLIFY TRAINING
Training requirements are reduced by deploying a single system able to be used by staff with a wide range of skill levels.
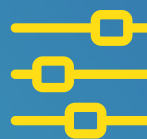

MINIMISE RELIANCE
With access to the latest information, reliance on specific personnel and outdated resources is reduced.

REDUCE COSTS
Saving time on tasks reduces your costs, particularly when it comes to breakdowns.

MAKE IT YOUR OWN
You can change and expand your ARDI-AR system easily, with new assets available immediately.

SAFETY AND COMPLIANCE
Be assured your staff work safely and in compliance with company and legislative standards.

LATEST DATA
ARDI-AR stores only the most critical information, everything else is read directly from your existing information systems.
