

PRESS RELEASE  
1<sup>st</sup> April 2022

## IICA Technology Expo Wollongong 2022

**Wollongong, NSW** – Earlier this week our Sales and Engineering team attended the IICA Technology Expo hosted in Wollongong. It was a great opportunity to connect and network with fellow industry members since the pandemic.

The event proved to be an informative day learning about industry trends and developing technical expertise, while raising awareness of our leading products and services. It was great to see some familiar faces, along with meeting new and interesting industry professionals.

Our supplier partners were representing with SMC, Wika, Temperature Controls and Pacific Automations being some of the great brands showcasing their instrumentation, sensors and control and automation ranges.

With a growing industry with new technology introduced, at Triple i we are excited to see what the rest of this year brings us and how we can continue to enhance operations across the Illawarra and greater New South Wales.

The **Institute of Instrumentation, Control and Automation** (IICA) Technology Expos are an opportunity to meet with many national and international companies showcasing their products or services relating to Instrumentation, Process Controls, Telemetry, Automation, Hardware, and Software.
