PRESS RELEASE
2^(ND) SEPTEMBER 2022

ROKLive 2022 Sydney

Sydney, NSW - ROKLive 2022 held by Rockwell Automation, delivering on its theme 'Get inspired to Innovate!'. Both our Sales Solutions, and Engineering and Technology teams were in attendance for the three-day event.

ROKLive is a three-day in-person unique training experience which offers 70+ sessions presented by Rockwell Automation, members of the PartnerNetwork™ and customers, across seven streams. It focused on industrial digital transformation and the latest innovation hardware & software that Rockwell Automation is bringing to market.

Our team had several opportunities to engage in expert-led technical sessions, interactive hands-on labs and demonstrations that explore digital technologies in manufacturing today. They especially enjoyed the opportunity to network and chat with fellow industry colleagues, industry experts and the team from Rockwell Automation and NHP.

With a large focus on digital transformation, innovation, automation and control technology, our Engineering and Technology team were in their element. They described the event as a ''great opportunity to see what was new and what is to come". Excited for what is to come was an understatement.
