## Helping to save a bro this

**Did you know that globally, on average, one man dies by suicide every minute of every day? Did you know that globally over 10.8 million men are living with or beyond prostate cancer? Did you know testicular cancer is the most common cancer for men aged 15-39?**

This Movember our team raised awareness and funds to fight against these statistics and help save men's lives. Our team made a huge effort in fundraising, with some growing a mo and others walking for Movember. All to save a bro!

Movember aims to make a difference in mental health and suicide prevention, prostate cancer, and testicular cancer. The donated funds will go towards medical research, ground-breaking tests and trials, life-changing men's health programs, and innovative treatments.

As a group, we raised over \$1000 of donations for the Movember charity. Thanks to our team and everyone who participated in Movember for their efforts. It's been great to see so many doing a lot of good for a whole lot of men. This awareness and donations could help save a man's life – a father, brother, son, friend, or partner.

It is not too late to donate to [our team](#) or [Movember](#) directly.

As you can see from the images, we had some very interesting mo moments from before and after shots of pooches leading the way on their walks.
