

## From Trainee to Full-Time Employee – Congrats Chelsea!

**Chelsea has recently completed her Business Traineeship with Triple i, transitioning to one of our full-time employees. We couldn't be happier and more pleased with her efforts – Congratulations Chelsea!**

Chelsea began her traineeship soon after finishing high school, signing up for a Certificate III in Business Administration with HVTC and Triple i as the host employer. After her first year, she continues her training with a Certificate IV in Business Administration, which was in line with her personal development plan.

The two-year training program was a success, providing on-the-job training and experience along with an accredited qualification. “Completing my Certificate III & IV here at Triple i has been the best experience and I am excited to see what the future holds”, explains Chelsea, as she embarks on her new chapter.

As professional development is important at Triple i, especially when ensuring skills are future-proof, Chelsea's opportunities for learning and development will continue. Her personal professional development plan has been updated to focus on ensuring gaps in her skills and upskilling needs are met in the future.

Chelsea works within the Accounts and Administration team and is often our client's first point of contact on the phone or at reception. She has become an invaluable member of the Triple i team and can't wait to see what the future brings. Congrats Chelsea!
