ELECTRICAL CONSTRUCTION

## ELECTRICAL TEST & TAG COMPLIANCE

**Our Certified Electrical Constructions Team is your assurance of safety and compliance. We meticulously inspect, test, and tag electrical equipment and assets, adhering to strict Australian Standards and state regulations. This critical process helps safeguard both your employees and equipment from potential dangers and harm.**

Having served the Illawarra and greater NSW region since 1991, our Electrical Constructions team has solidified Triple i's reputation as a leading electrical services provider. From electrical testing and tagging to advanced services like thermal imaging and residual current device (RCD) safety switch installation, we have the expertise to meet all your electrical testing needs.

Our comprehensive testing services include:

- Physical inspections
- Insulation, earth circuit, and continuity tests
- Functionality, leakage, and fault-finding tests
- Polarity wire and external damage checks
- Hazard identification

To ensure transparency and maintain your equipment's safety, our team records all tested equipment and assets in a complete asset register. This documentation serves as a valuable reference for future testing schedules, providing you with peace of mind that your operations consistently meet and exceed industry standards.

Safety is at the core of everything we do. As a testament to our commitment to quality, safety, and environmental management, we hold global compliance certifications ISO 9001 and ISO 45001.

### **Why Choose Triple i as Your Test and Tag Service Provider?**
