

Quality Policy

Triple I is committed to providing consistent high quality in the supply of its products and services.

The key methods to achieve the goals of this policy are to.

- Ensure our supply of all products and services complies with the relevant standards.
- Ensure our supply of all products and services is fit for the purpose and meets the needs of our customers.
- Maintain a set of effective policies, procedures and monitoring programs that support quality across all facets of the company's operations.
- Maintaining ISO9001 accreditation with a recognised external agency.
- Monitor the company's performance in respect to the quality aspects of our systems through auditing and non-conformance reporting.
- Investigate and resolve and issues to avoid reoccurrence.
- Seek continual improvement in our quality performance taking into account customer and community expectations, management practices, and advances in technology.
- Ensure all workers are trained and have the knowledge and skills required to comply with the quality needs of our system.
- Ensure that all workers and visitors are informed of and understand their obligations in respect to this policy.
